

COMPUTERBUGS Board Meeting  
Community Room, 229-A SW G Street, Grants Pass, OR 97526  
February 6, 2008

President Rury Ervin opened the meeting at 10:06 a.m. Others in attendance were: Norma Pedrick, Treasurer; Joanne Shields, Member-at-Large; Fred Koch, Member-at-Large, Helen Rhoades, Member-at-Large and Membership Chair Jim Frego, Administrative Advisor; and Secretary Ernie Coffman.

Rury asked if there were any items that needed to be discussed, and that Ernie had responded to her email asking for items that might need discussing. Thus, Rury explained that her daughter, Laura, and her friend, Rena will be putting on a program on "Buying and Selling on eBay" if the Board approves. Fred interjected that he was putting on the next program, on February 13th, on "Free Software," so the eBay program will be scheduled for February 27th.

Norma asked Jim how the Club Northwest non-profit presentation went. Jim responded by saying that there was a very low turnout, although the room was full of non-profit organizations. Question came up about whether to continue next year, but nothing came of this comment.

Joanne asked if the Board Minutes were seen by everyone, as she hadn't gotten the O.K. from Ernie to put them into the BUGS Server. Some discussion went on about the procedure with the Minutes and Joanne indicated that she wouldn't put them on the Webpage until Ernie had given the go-ahead.

The Board continued discussing what we could have on our future programs. Rury explained, "what, why, and how" of giving a presentation and to make it relaxing. Jim asked who we might know who knows how to discuss "stationery." With input coming from several people, Jim suggested asking Fran if he might do something on this. Other names came up, as well, but they would have to be invited to our meeting. Norma asked about the possibility of the Photo Den putting on a presentation, with Jim pointing out what might be available. He then went on to explain the difference of Blue Tooth and Blu-Ray.

Then discussion went into routers, wireless set-ups and other electronic devices dealing with home computers. Further discussion on various problems with Print Master came up, along with Print Shop and other similar software programs.

Our meeting ended with the lady in charge of the room, telling us that another group had the room next month. With that, we stood our ground, saying that we had "every first Wednesday" for quite some time and that this should be discussed.

Next Board meeting will be Wednesday, March 5th.

Ernie Coffman, Secretary
